

6th International Conference on Community Psychology

Poster Presentation Guidelines

Presentations should ideally adhere to the following guidelines:

- The size of the poster boards on which the posters will be displayed is 2.5m (height) X 1m (width). Please ensure that the size of your poster is within these parameters.
- Content: Maximum pertinent information should be provided in the poster.
- If the subject matter is empirical, the presentation should ideally reflect: the specific objective(s) of the study/presentation; methods of data collection and analysis; summary of the results obtained or anticipated; conclusions reached; and recommendations made.
- In the case of non-empirical posters, the presentation should ideally reflect: the specific objective(s) of the presentation; key theoretical framework(s); presentation's central argument(s); conclusions reached; and recommendations made.
- All posters will be exhibited in the **Exhibition Hall** from **Saturday, 28 May to Monday, 30 May, 09h00 to 16h45**.
- We encourage authors of poster presentations to be present during the specified tea and lunch times to interact with delegates and answer questions that they may have.
- Poster boards will be provided to all presenters. Please bring double-sided tape with which to mount the presentations to the poster board. As the poster boards are plastic, push-pins cannot be used.
- Presenters are responsible for mounting and removing posters from poster boards.
- Mounting of the posters will take place in the Exhibition Hall on Saturday, 28 May between 7h00 and 9h00. Dismantling of posters will take place after lunch on Monday, 30 May.
- Posters may not be used to advertise trademarked products or processes. Presenters are free to make any disclosures (to avoid conflict of interests).
